and Founding Principles The Center for Applied Research in Education (CARE) was established in the early 2000s as an independent think tank dedicated to improving educational outcomes through research-based practices. Its primary mission was to develop practical tools for teachers and students, bridging the gap between academic research and classroom application. While the initial focus was on curriculum development and teacher training, CARE expanded its scope to include supplementary educational resources such as interactive activities, digital content, and puzzles aimed at enhancing student engagement.

**Focus on Educational Puzzles and Games** In recent years, the Center has emphasized the integration of gamified learning tools, notably crossword puzzles, as a means to reinforce vocabulary, comprehension, and critical thinking skills.
